1.0 Introduction

1.1 Purpose

This document contains detailed test cases for Hospital Management System (HMS). The test cases are designed with the help of approved Software Requirement Specification (SRS), Test Plan, Test Design Specification (TDS) with the aim of supporting manual and tool supported testing activities of the HMS features.

1.2 References

The following documents provide the test basis for this test design:

- i. HMS Software Requirement Specification (SRS), HMS_SRS_1.0
- ii. HMS Test Plan, HMS_TP_1.0
- iii. HMS Test Design Specifications, HMS_TDS_1.0
- iv. Proposed Automated Testing report

2.0 Test Cases

2.1 Environment

The test cases for the Hospital Management System (HMS) shall be run in an appropriate test environment in the local area that matches the operating environment proposed for the system. All test cases will be conducted using a web browser, via a connection of the local HMS deployment environment since it is a web application. The required components for the execution of the defined test cases are maintained in the environment, which means the necessary server, database, browser, testing tools, and the test data.

The following environment is required for executing the HMS test cases:

Environment Item	Description
System	Hospital Management System (HMS)
Environment Type	Local test environment
OS	Windows 10 / Windows 11
Browser	Google Chrome
Web Server	Apache via XAMPP
Database	MySQL / MariaDB
Runtime	PHP

Table 2.1 Test Environment Setup

Support Item	Description
Test Accounts	Patient, Doctor, and Admin accounts
Test Data	Valid and invalid input data for registration, login, booking, prescription, and queries
Katalon Recorder	Used to record and replay browser-based functional workflows

TestCase Studio	Used to capture test steps, screenshots, and locators for documentation
Google Lighthouse	Used to audit selected HMS web pages for quality attributes
Evidence	Screenshots, logs, and audit reports

Table 2.2 Required Test Support

2.2 Test Case

This section provides a description of the test cases for the Hospital Management System (HMS) feature-wise. These test cases are written from the Test Design Specification (TDS) approved. These test cases are derived from identified test cases, test coverage items, and related test conditions for each feature on TDS. Test cases will be utilized in both manual and tool-assisted testing in the HMS test setting.

2.2.1 User Authentication

2.2.1.1 F001 Register Account

Test Case ID	TC-01-001		
Related Feature ID	F001		
Objective	Verify successful patient registration with valid input		
Covered Test Coverage Items	TCOV-01-001, TCOV-01-024		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter valid first name, last name, email, phone number, password, confirm password, and gender; click Register	System validates the input, creates a new patient account, and redirects the user to the patient dashboard	HMS running in local XAMPP environment; browser available	None

Test Case ID	TC-01-002		
Related Feature ID	F001		
Objective	Verify validation when required field is empty		
Covered Test Coverage Items	TCOV-01-005, TCOV-01-025		

Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Leave one or more required fields empty; click Register	System displays validation message and does not create the account	HMS running in local XAMPP environment	None

Test Case ID	TC-01-003		
Related Feature ID	F001		
Objective	Verify rejection when password and confirm password do not match		
Covered Test Coverage Items	TCOV-01-004, TCOV-01-026		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter mismatched password and confirm password; click Register	System displays password mismatch error and does not create the account	HMS running in local XAMPP environment	None

Test Case ID	TC-01-004		
Related Feature ID	F001		
Objective	Verify rejection for invalid email or invalid password length		
Covered Test Coverage Items	TCOV-01-002, TCOV-01-003, TCOV-01-027, TCOV-01-028		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency

Enter invalid email format or password fewer than 6 characters; click Register	System displays appropriate error message and does not create the account	HMS running in local XAMPP environment	None
--	---	--	------

2.2.1.2 F002 Login

Test Case ID	TC-02-001		
Related Feature ID	F002		
Objective	Verify successful login for valid patient, doctor, or admin credentials		
Covered Test Coverage Items	TCOV-02-001, TCOV-02-002, TCOV-02-003, TCOV-02-026, TCOV-02-027, TCOV-02-028		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Open the correct login page; enter valid email/username and password; click Login	System validates the credentials and redirects the user to the correct dashboard based on role	Valid patient, doctor, and admin accounts must already exist	None

Test Case ID	TC-02-002		
Related Feature ID	F002		
Objective	Verify validation when login fields are empty		
Covered Test Coverage Items	TCOV-02-006, TCOV-02-029		

Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Leave email/username and password fields empty; click Login	System displays validation message and does not allow login	HMS login page accessible	None

Test Case ID	TC-02-003		
Related Feature ID	F002		
Objective	Verify rejection for invalid credentials		
Covered Test Coverage Items	TCOV-02-004, TCOV-02-005, TCOV-02-030		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter non-existing account or incorrect password; click Login	System rejects the login attempt and displays an error message	HMS login page accessible	None

Test Case ID	TC-02-004		
Related Feature ID	F002		
Objective	Verify rejection when user logs in through the wrong role interface		
Covered Test Coverage Items	TCOV-02-031		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency

Enter valid credentials in the wrong role login page; click Login	System rejects the login attempt and displays an error message	Valid account from another role required	None
---	--	--	------

2.2.1.3 F003 Logout

Test Case ID	TC-03-001		
Related Feature ID	F003		
Objective	Verify successful logout from an active session		
Covered Test Coverage Items	TCOV-03-001, TCOV-03-014, TCOV-03-015, TCOV-03-016		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in patient, doctor, or admin clicks Logout	System terminates the session, displays the logout message, and allows return to login page	User must already be logged in	None

Test Case ID	TC-03-002		
Related Feature ID	F003		
Objective	Verify redirection to login page after clicking “Back to Login Page”		
Covered Test Coverage Items	TCOV-03-003, TCOV-03-012		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency

After logout, click Back to Login Page	System redirects the user to the login page	Successful logout page must already be displayed	Depends on successful logout
--	---	--	------------------------------

Test Case ID	TC-03-003		
Related Feature ID	F003		
Objective	Verify handling when logout is attempted without an active session		
Covered Test Coverage Items	TCOV-03-002, TCOV-03-017		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access logout page/function without login	System redirects to login page or prevents access	HMS accessible in browser	None

Test Case ID	TC-03-004		
Related Feature ID	F003		
Objective	Verify dashboard access is blocked after logout		
Covered Test Coverage Items	TCOV-03-006, TCOV-03-018		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logout successfully, then use browser back button or try to	System blocks access to the dashboard and requires login again	Successful logout required	Depends on successful logout

revisit protected page			
---------------------------	--	--	--

2.2.2 Patient Functions

2.2.2.1 F004 Book Appointment

Test Case ID	TC-04-001		
Related Feature ID	F004		
Objective	Verify successful appointment booking with valid input		
Covered Test Coverage Items	TCOV-04-001, TCOV-04-026		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Select specialization=Cardiologist; doctor=Dr. John; date=tomorrow; time=10:00; click Create New Entry	System validates the appointment information, creates the appointment record, and displays a successful booking message	Logged-in patient account required; HMS running in local XAMPP environment	None

Test Case ID	TC-04-002		
Related Feature ID	F004		
Objective	Verify booking rejection when doctor is unavailable		
Covered Test Coverage Items	TCOV-04-007, TCOV-04-027		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency

Select doctor already booked at chosen date/time; click Create New Entry	System rejects the booking and displays doctor unavailable message	Logged-in patient account required; existing booked slot required	None
--	--	---	------

Test Case ID	TC-04-003		
Related Feature ID	F004		
Objective	Verify booking rejection for invalid date/time		
Covered Test Coverage Items	TCOV-04-006, TCOV-04-028		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Select appointment date/time in the past; click Create New Entry	System rejects the booking and displays future date/time error message	Logged-in patient account required	None

Test Case ID	TC-04-004		
Related Feature ID	F004		
Objective	Verify validation when required fields are missing		
Covered Test Coverage Items	TCOV-04-002, TCOV-04-003, TCOV-04-004, TCOV-04-005, TCOV-04-029		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Leave one or more required fields	System displays validation message	Logged-in patient account required	None

unselected; click Create New Entry	and does not create the appointment		
---------------------------------------	---	--	--

2.2.2.2 F005 View Appointment History

Test Case ID	TC-05-001		
Related Feature ID	F005		
Objective	Verify appointment history display when records exist		
Covered Test Coverage Items	TCOV-05-001, TCOV-05-021		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in patient opens Appointment History page	System displays appointment list with doctor name, fee, date, time, and status	Logged-in patient with existing appointment records required	None

Test Case ID	TC-05-002		
Related Feature ID	F005		
Objective	Verify empty history handling when no records exist		
Covered Test Coverage Items	TCOV-05-002, TCOV-05-022		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in patient with no appointments	System displays empty list or appropriate message	Logged-in patient with no appointment records required	None

opens Appointment History page			
--------------------------------	--	--	--

Test Case ID	TC-05-003		
Related Feature ID	F005		
Objective	Verify active appointment shows valid cancel action		
Covered Test Coverage Items	TCOV-05-004, TCOV-05-023		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Open history page where appointment status is Active	System displays appointment as Active and shows Cancel button/action	Logged-in patient with active appointment required	None

Test Case ID	TC-05-004		
Related Feature ID	F005		
Objective	Verify cancelled appointment is shown as read-only		
Covered Test Coverage Items	TCOV-05-005, TCOV-05-024		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Open history page where appointment status is Cancelled	System displays cancelled status and does not allow	Logged-in patient with cancelled appointment required	None

	valid cancellation again		
--	-----------------------------	--	--

2.2.2.3 F006 Cancel Appointment

Test Case ID	TC-06-001		
Related Feature ID	F006		
Objective	Verify successful cancellation of an active appointment		
Covered Test Coverage Items	TCOV-06-001, TCOV-06-020		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in patient selects active appointment; clicks Cancel; confirms action	System updates appointment status to Cancelled and displays success message	Logged-in patient with active appointment required	None

Test Case ID	TC-06-002		
Related Feature ID	F006		
Objective	Verify cancellation is aborted when confirmation is rejected		
Covered Test Coverage Items	TCOV-06-004, TCOV-06-021		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in patient selects active appointment; clicks Cancel; rejects confirmation	System keeps appointment active and returns to appointment history	Logged-in patient with active appointment required	None

Test Case ID	TC-06-003		
Related Feature ID	F006		
Objective	Verify cancellation is not allowed for already cancelled appointment		
Covered Test Coverage Items	TCOV-06-002, TCOV-06-022		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Attempt to cancel appointment already marked Cancelled	System does not allow cancellation and displays appropriate message	Logged-in patient with cancelled appointment required	None

Test Case ID	TC-06-004		
Related Feature ID	F006		
Objective	Verify unauthenticated access is rejected		
Covered Test Coverage Items	TCOV-06-005, TCOV-06-023		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access cancel action/page without login	System redirects to login page or blocks access	HMS running in local environment	None

2.2.2.4 F007 View Prescription

Test Case ID	TC-07-001		
Related Feature ID	F007		
Objective	Verify prescription details can be viewed successfully		
Covered Test Coverage Items	TCOV-07-001, TCOV-07-024		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in patient opens Prescriptions page with existing prescription record	System displays prescription details correctly	Logged-in patient with prescription record required	None

Test Case ID	TC-07-002		
Related Feature ID	F007		
Objective	Verify bill payment and PDF generation main flow		
Covered Test Coverage Items	TCOV-07-004, TCOV-07-005, TCOV-07-007, TCOV-07-024		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Open prescription page; click Pay Bill; payment succeeds; confirm output generation	System shows successful bill payment message and generates the bill PDF	Logged-in patient with payable prescription record required	None

Test Case ID	TC-07-003		
Related Feature ID	F007		

Objective	Verify empty prescription list handling		
Covered Test Coverage Items	TCOV-07-002, TCOV-07-025		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in patient with no prescription opens Prescriptions page	System displays empty list or appropriate message	Logged-in patient with no prescription record required	None

Test Case ID	TC-07-004		
Related Feature ID	F007		
Objective	Verify PDF is not generated when payment fails		
Covered Test Coverage Items	TCOV-07-006, TCOV-07-026		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Attempt bill generation but payment is not completed successfully	System does not generate the PDF bill	Logged-in patient with unpaid prescription record required	None

2.2.2.5 F008 Submit Contact Query

Test Case ID	TC-08-001		
Related Feature ID	F008		
Objective	Verify successful contact query submission with valid input		
Covered Test Coverage Items	TCOV-08-001, TCOV-08-020		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Name=John; Email=john@gmail.com; Phone=0123456789; Message=Need help; click Submit	System validates input, stores the query, and displays success message	Contact page accessible; browser available	None

Test Case ID	TC-08-002		
Related Feature ID	F008		
Objective	Verify validation when required field is empty		
Covered Test Coverage Items	TCOV-08-002, TCOV-08-004, TCOV-08-006, TCOV-08-021		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Leave one or more fields empty; click Submit	System displays validation message and does not submit the query	Contact page accessible	None

Test Case ID	TC-08-003
---------------------	-----------

Related Feature ID	F008		
Objective	Verify rejection for invalid email format		
Covered Test Coverage Items	TCOV-08-003, TCOV-08-022		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Email=johngmail.com; other fields valid	System displays invalid email error and does not submit the query	Contact page accessible	None

Test Case ID	TC-08-004		
Related Feature ID	F008		
Objective	Verify rejection for invalid phone number format		
Covered Test Coverage Items	TCOV-08-005, TCOV-08-023		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Phone=abc123; other fields valid	System displays phone validation error and does not submit the query	Contact page accessible	None

2.2.3 Doctor Functions

2.2.3.1 F009 View Appointment

Test Case ID	TC-09-001		
Related Feature ID	F009		
Objective	Verify appointment list is displayed when doctor has assigned appointments		
Covered Test Coverage Items	TCOV-09-001, TCOV-09-020		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in doctor opens View Appointment page	System displays the appointment list with patient details, date, time, and status	Logged-in doctor account with existing assigned appointments required	None

Test Case ID	TC-09-002		
Related Feature ID	F009		
Objective	Verify empty appointment list handling when doctor has no assigned appointments		
Covered Test Coverage Items	TCOV-09-002, TCOV-09-021		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in doctor with no appointments	System displays empty list or appropriate message	Logged-in doctor account with no appointments required	None

opens View Appointment page			
-----------------------------	--	--	--

Test Case ID	TC-09-003		
Related Feature ID	F009		
Objective	Verify search by valid patient contact number		
Covered Test Coverage Items	TCOV-09-003, TCOV-09-022		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter valid patient contact number in search field	System filters and displays matching appointment record(s)	Logged-in doctor account; existing appointment with matching contact number required	None

Test Case ID	TC-09-004		
Related Feature ID	F009		
Objective	Verify no-result handling for unmatched contact number		
Covered Test Coverage Items	TCOV-09-004, TCOV-09-023		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter unmatched patient contact number in search field	System displays no-result or appropriate message and remains on the	Logged-in doctor account required	None

	appointment list page		
--	--------------------------	--	--

2.2.3.2 F010 Prescribe Medication

Test Case ID	TC-10-001		
Related Feature ID	F010		
Objective	Verify successful prescription creation with valid input		
Covered Test Coverage Items	TCOV-10-001, TCOV-10-025		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Select active appointment; enter Disease=Flu; Allergy=None; Prescription=Paracetamol; click Submit	System validates the input, creates the prescription record, and displays success message	Logged-in doctor account; valid active appointment assigned to doctor required	None

Test Case ID	TC-10-002		
Related Feature ID	F010		
Objective	Verify validation when required prescription field is empty		
Covered Test Coverage Items	TCOV-10-002, TCOV-10-003, TCOV-10-026		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency

Leave disease or prescription field empty; click Submit	System displays validation message and does not save the prescription	Logged-in doctor account; valid active appointment required	None
---	---	---	------

Test Case ID	TC-10-003		
Related Feature ID	F010		
Objective	Verify prescription creation is rejected for invalid or inactive appointment		
Covered Test Coverage Items	TCOV-10-004, TCOV-10-005. TCOV-10-027		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Attempt to prescribe using invalid appointment ID or cancelled appointment	System rejects the prescription creation and returns to appointment list or shows error	Logged-in doctor account required	None

Test Case ID	TC-10-004		
Related Feature ID	F010		
Objective	Verify error handling when prescription record cannot be saved		
Covered Test Coverage Items	TCOV-10-028		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency

Submit valid prescription details but simulate save failure	System displays error message and no prescription record is created	Logged-in doctor account; valid appointment; database failure simulation or equivalent evidence required	None
---	---	--	------

2.2.3.3 F011 Cancel Appointment

Test Case ID	TC-11-001		
Related Feature ID	F011		
Objective	Verify successful cancellation by the assigned doctor		
Covered Test Coverage Items	TCOV-11-001, TCOV-11-022		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in doctor selects active assigned appointment; clicks Cancel; confirms action	System updates the appointment status to Cancelled and displays success message	Logged-in doctor account; active appointment assigned to the doctor required	None

Test Case ID	TC-11-002		
Related Feature ID	F011		
Objective	Verify cancellation is aborted when confirmation is rejected		
Covered Test Coverage Items	TCOV-11-004, TCOV-11-023		

Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in doctor selects active appointment; clicks Cancel; rejects confirmation	System keeps appointment unchanged and returns to appointment list	Logged-in doctor account; active assigned appointment required	None

Test Case ID	TC-11-003		
Related Feature ID	F011		
Objective	Verify cancellation ios blocked for appointment not assigned to the doctor		
Covered Test Coverage Items	TCOV-11-005, TCOV-11-024		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Attempt to cancel appointment belonging to another doctor	System blocks the action and displays an appropriate error message	Logged-in doctor account; appointment belonging to another doctor required	None

Test Case ID	TC-11-004		
Related Feature ID	F011		
Objective	Verify unauthenticated access is rejected		
Covered Test Coverage Items	TCOV-11-006, TCOV-11-025		

Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access doctor cancellation function/page without login	System redirects to login page or denies access	HMS running in local environment	None

2.2.3.4 F012 View Prescription List

Test Case ID	TC-12-001		
Related Feature ID	F012		
Objective	Verify prescription list is displayed when doctor has prescription records		
Covered Test Coverage Items	TCOV-12-001, TCOV-12-020		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in doctor opens Prescription List page	System displays prescription list with appointment details, disease, allergy, and prescription information	Logged-in doctor account with existing prescription records required	None

Test Case ID	TC-12-002		
Related Feature ID	F012		
Objective	Verify empty prescription list handling when no records exist		

Covered Test Coverage Items	TCOV-12-002, TCOV-12-021		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in doctor with no prescriptions opens Prescription List page	System displays empty list or appropriate message	Logged-in doctor account with no prescription records required	None

Test Case ID	TC-12-003		
Related Feature ID	F012		
Objective	Verify unauthorized prescription record is not displayed		
Covered Test Coverage Items	TCOV-12-005, TCOV-12-022		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access prescription list where a record belongs to another doctor	System hides the unauthorized prescription record	Logged-in doctor account required; prescription belonging to another doctor required	None

Test Case ID	TC-12-004		
Related Feature ID	F012		
Objective	Verify unauthenticated access is rejected		
Covered Test Coverage Items	TCOV-12-003, TCOV-12-023		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access doctor prescription list without login	System redirects to login page or denies access	HMS running in local environment	None

2.2.4 Admin Functions

2.2.4.1 F013 Add Doctor

Test Case ID	TC-13-001		
Related Feature ID	F013		
Objective	Verify successful doctor account creation with valid input		
Covered Test Coverage Items	TCOV-13-001		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter valid doctor details; click Add Doctor	System validates input, creates the doctor account, and displays success message	Logged-in admin account required	None

Test Case ID	TC-13-002		
Related Feature ID	F013		
Objective	Verify validation when required field is empty		
Covered Test Coverage Items	TCOV-13-002		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Leave one or more required fields empty; click Add Doctor	System displays validation message and does not create doctor account	Logged-in admin account required	None

Test Case ID	TC-13-003		
Related Feature ID	F013		
Objective	Verify rejection for invalid email or password mismatch		
Covered Test Coverage Items	TCOV-13-003, TCOV-13-004		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter invalid email or mismatched password/confirm password	System rejects the submission and displays appropriate error message	Logged-in admin account required	None

Test Case ID	TC-13-004		
Related Feature ID	F013		
Objective	Verify rejection for invalid consultation fee		
Covered Test Coverage Items	TCOV-13-005		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter invalid fee such as 0 or negative value	System rejects the submission and displays fee validation error	Logged-in admin account required	None

2.2.4.2 F014 Delete Doctor

Test Case ID	TC-14-001		
Related Feature ID	F014		
Objective	Verify successful deletion of an existing doctor record		
Covered Test Coverage Items	TCOV-14-001		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in admin selects an existing doctor and clicks Delete	System removes the selected doctor record and updates the doctor list	Logged-in admin account; existing doctor record required	None

Test Case ID	TC-14-002		
Related Feature ID	F014		
Objective	Verify deletion is blocked for non-existing doctor record		
Covered Test Coverage Items	TCOV-14-002		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Attempt to delete doctor record that does not exist	System does not perform deletion and displays an appropriate error message	Logged-in admin account required	None

Test Case ID	TC-14-003		
Related Feature ID	F014		

Objective	Verify unauthenticated access is rejected		
Covered Test Coverage Items	TCOV-14-003		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access delete doctor function/page without login	System redirects to login page or denies access	HMS running in local environment	None

2.2.4.3 F015 View & Search Doctor List

Test Case ID	TC-15-001		
Related Feature ID	F015		
Objective	Verify doctor list is displayed successfully		
Covered Test Coverage Items	TCOV-15-001		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in admin opens Doctor List page	System displays all registered doctor records	Logged-in admin account required	None

Test Case ID	TC-15-002		
Related Feature ID	F015		
Objective	Verify search by valid doctor email		
Covered Test Coverage Items	TCOV-15-002		

Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter existing doctor email in search field	System displays matching doctor record(s)	Logged-in admin account; existing doctor email required	None

Test Case ID	TC-15-003		
Related Feature ID	F015		
Objective	Verify no-result handling for unmatched email		
Covered Test Coverage Items	TCOV-15-003		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter unmatched doctor email in search field	System displays empty result or appropriate message	Logged-in admin account required	None

Test Case ID	TC-15-004		
Related Feature ID	F015		
Objective	Verify unauthenticated access is rejected		
Covered Test Coverage Items	TCOV-15-004		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency

Access doctor list without login	System redirects to login page or denies access	HMS running in local environment	None
----------------------------------	---	----------------------------------	------

2.2.4.4 F016 View & Search Patient List

Test Case ID	TC-16-001		
Related Feature ID	F016		
Objective	Verify patient list is displayed successfully		
Covered Test Coverage Items	TCOV-16-001		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in admin opens Patient List page	System displays all registered patient records	Logged-in admin account required	None

Test Case ID	TC-16-002		
Related Feature ID	F016		
Objective	Verify search by valid patient contact number		
Covered Test Coverage Items	TCOV-16-002		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter existing patient contact number in search field	System displays matching patient record(s)	Logged-in admin account; existing patient contact number required	None

Test Case ID	TC-16-003		
Related Feature ID	F016		
Objective	Verify no-result handling for unmatched contact number		
Covered Test Coverage Items	TCOV-16-003		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter unmatched patient contact number in search field	System displays empty result or appropriate message	Logged-in admin account required	None

Test Case ID	TC-16-004		
Related Feature ID	F016		
Objective	Verify unauthenticated access is rejected		
Covered Test Coverage Items	TCOV-16-004		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access patient list without login	System redirects to login page or denies access	HMS running in local environment	None

2.2.4.5 F017 View & Search Appointment Details

Test Case ID	TC-17-001		
Related Feature ID	F017		
Objective	Verify appointment details list is displayed successfully		
Covered Test Coverage Items	TCOV-17-001		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in admin opens Appointment Details page	System displays appointment records with patient, doctor, fee, date, time, and status details	Logged-in admin account required	None

Test Case ID	TC-17-002		
Related Feature ID	F017		
Objective	Verify search by valid patient contact number		
Covered Test Coverage Items	TCOV-17-002		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter existing patient contact number in search field	System displays matching appointment record(s)	Logged-in admin account; existing appointment record required	None

Test Case ID	TC-17-003		
---------------------	-----------	--	--

Related Feature ID	F017		
Objective	Verify no-result handling for unmatched contact number		
Covered Test Coverage Items	TCOV-17-003		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter unmatched patient contact number in search field	System displays empty result or appropriate message	Logged-in admin account required	None

Test Case ID	TC-17-004		
Related Feature ID	F017		
Objective	Verify unauthenticated access is rejected		
Covered Test Coverage Items	TCOV-17-004		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access appointment details page without login	System redirects to login page or denies access	HMS running in local environment	None

2.2.4.6 F018 View Prescription List

Test Case ID	TC-18-001		
Related Feature ID	F018		
Objective	Verify admin prescription list is displayed successfully		
Covered Test Coverage Items	TCOV-18-001		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in admin opens Prescription List page	System displays prescription records with doctor, patient, appointment, disease, allergy, and prescription details	Logged-in admin account required	None

Test Case ID	TC-18-002		
Related Feature ID	F018		
Objective	Verify empty list handling when no prescription records exist		
Covered Test Coverage Items	TCOV-18-002		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in admin opens prescription list when no records exist	System displays empty list or appropriate message	Logged-in admin account; no prescription records in dataset	None

Test Case ID	TC-18-003		
Related Feature ID	F018		
Objective	Verify unauthenticated access is rejected		
Covered Test Coverage Items	TCOV-18-003		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access admin prescription list without login	System redirects to login page or denies access	HMS running in local environment	None

2.2.4.7 F019 View & Search User Queries

Test Case ID	TC-19-001		
Related Feature ID	F019		
Objective	Verify user query list is displayed sucessfully		
Covered Test Coverage Items	TCOV-19-001		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Logged-in admin opens User Queries page	System displays submitted query records with name, email, contact number, and message	Logged-in admin account required	None

Test Case ID	TC-19-002
---------------------	-----------

Related Feature ID	F019		
Objective	Verify search by valid contact number		
Covered Test Coverage Items	TCOV-19-002		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter existing contact number in query search field	System displays matching query record(s)	Logged-in admin account; existing query record required	None

Test Case ID	TC-19-003		
Related Feature ID	F019		
Objective	Verify no-result handling for unmatched contact number		
Covered Test Coverage Items	TCOV-19-003		
Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Enter unmatched contact number in search field	System displays empty result or appropriate message	Logged-in admin account required	None

Test Case ID	TC-19-004		
Related Feature ID	F019		
Objective	Verify unauthenticated access is rejected		
Covered Test Coverage Items	TCOV-19-004		

Input	Expected Result	Special Procedural Requirements	Intercase Dependency
Access user queries page without login	System redirects to login page or denies access	HMS running in local environment	None
